1 Preamble

Buller Ski Lifts Pty Ltd (BSL) and its group of companies, recognises the importance of the unique natural environment in which it operates, and is committed to managing its activities in such a way as to minimise impacts on this environment.

2 Policy

To fulfil this commitment BSL will ensure that proper consideration is given to the care and protection of the flora, fauna, land, air, water, and landscape values by:

- Preserving and enhancing the natural environment of the Mt Buller ski field;
- Conserving natural resources by utilising raw materials and energy in an efficient and responsible manner;
- Seeking to prevent pollution and reduce wastes, by actively pursuing source reduction or elimination, reuse, and recycling;
- Allocating resources to enable environmental issues to be addressed;
- Ensuring compliance with legislation, and other requirements which apply to our operations;
- Committing to continually improve our environmental performance, by setting environmental objectives and regularly reviewing and monitoring progress against them;
- Promoting environmental awareness amongst employees, contractors, and guests;
- Defining the responsibilities of employees and managers in undertaking their duties and holding them accountable for achieving agreed targets.
- Maintaining certification to ISO 14001:2004 for our Environmental Management System.

This policy applies to all of BSL's operations, and will be communicated to all parties with an interest in BSL's environmental management practices.
