

# Employment Opportunities

We are now hiring for the 2026 Australian snow season. Our season commences in early June (and that's when we open) and concludes end September. We expect most staff to arrive at Mt Buller by mid-June 2026. We love having a mix of Australian and overseas people work with us. In 2025, we had people from all over the world - Argentina, Chile, France, US, Canada, UK, Taiwan, and from all over Australia. Each year we assemble a small passionate team of approximately 15 staff. Each member of staff is very important to us. We become one big family for the Aussie winter, and we accommodate our staff in the one big house!

## Vacancies
